## **OFFICIAL STATEMENT REGARDING CUSTOMER SUPPORT**

### **IN COLORADO AND VIRGINIA**

**At Next Level Arms, we believe lawful firearm ownership is not a political trend. It is a constitutional right.**

- **Recent and proposed legislative actions in Colorado and Virginia create uncertainty for responsible citizens who are attempting to make lawful purchases. Regardless of where policy debates land, our position remains unchanged: we support Americans exercising their rights within the bounds of the law.**

**Effective immediately, Next Level Arms will prioritize fulfillment of in-stock, lawful orders shipping to Colorado and Virginia.**

**This decision is not promotional. It is not reactive marketing. It is a deliberate choice to support customers who are navigating changing regulatory environments.**

**What this means:**

- **In-stock, compliant items shipping to Colorado or Virginia will be moved forward in our fulfillment queue where operationally possible**
- **All orders remain subject to federal, state, and local compliance requirements**
- **This accommodation may be adjusted based on inventory levels and operational capacity**

**We will continue to manufacture responsibly, conduct business lawfully, and stand behind the principles that built this company.**

**Next Level Arms exists because freedom matters. That does not change when legislation does.**

**Respectfully,**

**Next Level Armament Executive Team**
